

## Web Development

### Technologies

JavaScript (ES6)  
React  
GraphQL  
SQL / MongoDB  
Node.js / Express.js  
3rd party APIs  
HTML / CSS  
Git

### Skills / Techniques

MERN Stack  
PWAs / SPAs  
Reading documentation  
AGILE  
AJAX / RESTful APIs  
MVC  
OOP / TDD  
Heroku / GitHub

### Certification

**The University of Texas at Austin - 2022**  
Full Stack Web Development

## Education

**Austin Community College - 2013**  
A.A. Degree in Foreign Language: French

**Austin Area Home Schoolers - 2009**  
High School Equivalency / Lifelong Learning

## Experience

2006 - 2013

Cashier / Cart Wrangler  
**H-E-B Groceries** - Bee Cave, TX

- Basic customer service skills learned through trial by fire in a supermarket environment.
- Basic teamwork skills and a solid work ethic developed in a large workforce within a large company.
- Experience in manual labor gained by retrieving shopping carts from the parking lot through 7 Texas summers.

2013 - 2022

Cashier / Food Prep / Driver  
**The Soup Peddler** - Austin, TX

- Advanced customer service skills learned through trial by fire in a restaurant environment.
- Advanced teamwork skills and a strong work ethic developed in a small workforce within a small company.
- Experience in the food service industry gained by serving soup and making smoothies for a diverse clientele through 9 Texas winters.
- Widely applicable time management techniques learned from driving the company van for home deliveries and store resupply throughout Austin.

2010 - present

Musician / Audio Engineer  
**Self-employed** - Austin, TX

- Learned to work in fast-paced, chaotic environments, alongside a wide spectrum of colorful humans as collaborators, band mates, crew mates, and clients.
- Ran live sound for weddings and music performances, and recorded bands and dialogue for audio books.
- Learned flexibility when it comes to finding creative solutions to unrehearsed problems.
- Trained in critical analysis of audio:
  - In musical terms: how harmony and rhythm affect us on an emotional level, both for entertainment and work productivity.
  - In engineering terms: how dynamics, balance of frequencies, and strategic use of ear candy can enhance an audio experience.
